SUMMARY

Full Stack Developer who builds modern web and mobile applications with React, Next.js, Node.js, Express and MongoDB. Certified in Full Stack Web Development (2026), with 9 months of hands-on experience building authenticated web apps, REST APIs and responsive interfaces across booking, inventory, delivery and management systems. Currently deepening Next.js and scalable backend architecture.

EXPERIENCE

Full Stack Developer
Feb 2026 - Present

Possible Technology PLC | Addis Ababa, Ethiopia

? Built responsive web interfaces with React, Next.js and Tailwind CSS.
? Developed REST APIs with Node.js and Express, backed by MongoDB.
? Implemented JWT-based authentication and protected routes.
? Worked from Figma designs and managed code with Git.

Full Stack Developer
Part-time

WELEBA Technology | Addis Ababa, Ethiopia

? Built web and mobile features with React and React Native.
? Worked on real-time features with WebSockets and deployed with Docker and CI/CD.

PROJECTS

? **BMBooking** - Healthcare appointment and booking management system with authenticated dashboards and protected routes. Tech: Next.js, Node.js, MongoDB, JWT
? **BMProperty** - Property management system for handling listings, tenants and operations through a responsive interface. Tech: Next.js, TypeScript, Tailwind CSS, MongoDB
? **BM-Stock** - Inventory and stock management system for tracking products, stock levels and movements. Tech: React, Node.js, Express, MongoDB
? **BMDelivery** - Delivery management system for coordinating orders, couriers and delivery status. Tech: React, Node.js, Express, MongoDB
? **Care-Car-Wash** - Car wash management system for bookings, services and daily operations. Tech: React, Tailwind CSS, Node.js, Express, MongoDB
? **Addis-Ababa-Revenue-Bureau** - Revenue management system with secure authentication and protected administrative routes. Tech: React, Node.js, Express, MongoDB, JWT
? **PeaceAndSecurity** - Peace and security management system for reporting and managing incidents. Tech: React, Node.js, Express, MongoDB, JWT
? **Black Diamond App** - Mobile application built with React Native and backed by a Node.js API. Tech: React Native, Node.js

Personal Projects

? **Salon-Booking** - Fully developed salon management and booking system with services, appointments and clients. Tech: React, Node.js, Express, MongoDB

EDUCATION

Bachelor, Software Engineering
2023

Addis Ababa Institute of Technology (AAIT)

Certificates

? Full Stack Web Development | 2026
? WebSockets
? React
? React Native
? Expo
? Docker, CI/CD, AWS

SKILLS

Languages: JavaScript, TypeScript, Python, HTML, CSS
Frontend: React, Next.js, Tailwind CSS, Vite
Backend & Database: Node.js, Express.js, MongoDB, REST APIs, JWT Authentication
Web & Mobile: WebSockets, React, React Native, Expo
DevOps & Cloud: Docker, CI/CD, AWS
Tools: Git, GitHub, Figma, VS Code
